

## Being an Owner Builder

Thursday 15<sup>th</sup> October 7.00 – 9.00pm

Arthur's Creek Mechanics Institute Hall.

906 Arthurs Creek Road, Arthurs Creek

Are you looking to rebuild your home as owner builder?

How do you become a successful owner builder?

What are the dangers and what are the benefits of being an owner builder?

The eighth co-operative venture between the Strathewen and St Andrews Rebuilding groups will be a forum for people who are thinking about rebuilding as owner builders and who are looking for information and advice regarding being an owner builder.

Presentations will include:

- Building Commission of Victoria and Australian Institute of Building Surveyors. Mr. Denis Hogan (who works for the Building Commission and is a member of the AIBS) will present on being an owner builder and what requirements you need to meet to become an owner builder.
- Tricks of the Trade. Mr. Ean Power, the author of the 'Tricks of the Trade' book will present on how to successfully owner build your home.

The forum will consist of a short presentation from each presenter with question time after, and then the opportunity to speak in small round table groups with presenters.

A range of questions will be answered with particular attention paid to:

- What you need to do to become an owner builder and how to successfully owner build.

If there's something you want to know which isn't on the list simply include these questions with your RSVP and we will endeavour to provide the information you need. Let your neighbors know and please let us know how many are coming so we can cater.

Supper is provided afterwards which provides a chance to speak with other residents going through the same process.

Please RSVP (so we can arrange catering) to
